

Hey everybody!

My name is Lea Neibersch and I was born on the 6th of January 2003, so I'm 14 years old. I live in Carinthia in a house with my dad and every second week I live at my mom's flat. I also have an elder sister, but she finished school two years ago and now she lives in Vienna and studies there at the university. I am a student of the Stiftsgymnasium St. Paul where I'm in the 9th grade.

My hobbies

I don't really have so many hobbies. I do hobbies like singing just in my free time for myself, but my main hobby is riding. I have been riding Icelandic horses for 7 years now which is a little different to riding other horse breeds, because they have some special gates. I am in love with this horse breed since I was riding one the first time when I was 7 years old. Every Saturday, in the holidays even two to five times a week I go to the stable at 8am or earlier. I spend the whole day there with riding and doing other work like cleaning the stables and feeding the horses.

My family and friends

My dad works as a mechanic and my mom as a secretary in an office in Völkermarkt. As I have already mentioned before I have an elder sister who attended a high school in Klagenfurt and now lives in Vienna. We don't see each other very often, because it takes us three and a half hours to Vienna. Other little member of my family are my cat named Mini and my rabbit named Georg.

I have known my two best friends since kindergarden and they also attend the Stiftsgymnasium St. Paul. Emilia, Julia and I have been a trio since 12 years and we know each other better than we know ourselves. Since this year they have been in other classes but that isn't a problem because we go to school together every day and we also often meet in our free time. My best friend in my new class is Magdi. I have known her since the beginning of the school year and I'm so glad to have her.
