

Hello everybody!

My name is Laura-Samantha Schubel and I am 15 years old.

I live in a house, in a small village in South Carinthia, together with my parents.

My father is an auditor and my mother is a housewife. My older brother Samuel lives together with his girlfriend Andrea in Graz, because he's working there as a trustee.

Me, playing the guitar in an ensemble

As my father, I'm also totally into music, and that's why I am taking music classes three times a week.

I have been playing the guitar for nine years and the violin for seven years already. To improve my playing skills I am also participating at numerous orchestras and ensembles.

But I have to admit that my passion is singing. I'm literally singing everywhere, in the car, at home, under the shower,...

Apart from that I'm also into sports like cycling, hiking, skiing and horseback riding. Apart from that I also enjoy spending a lot of time with my friends.

I'm really looking forward to the "Erasmus +" project, because I love to learn something new about foreign cultures, languages and countries.
