

Hello Everybody!

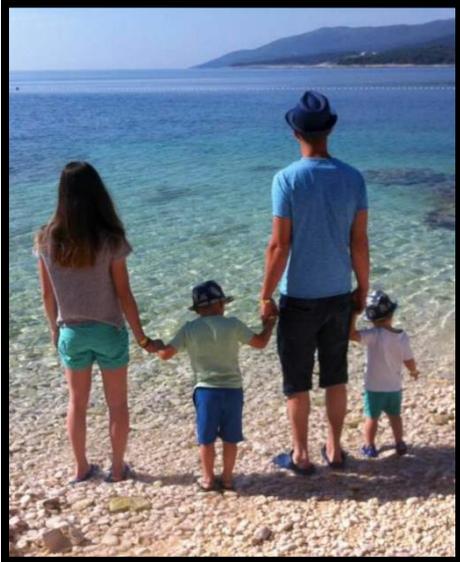

My name is Mona Strutz and I am a 14-year-old schoolgirl from Stiftsgymnasium St. Paul. St. Paul is in Southern Carinthia in Austria and it's near my hometown St. Andrä, where I live with my family. My family has five members: My mum Barbara, my dad Gerhard, my younger brother Marc, me and my cat. He's called Tiger

Tiger isn't the only animal my family and I own. I also have a horse called Noor (it's an Arabic name and in German it means light.) I love my animals. I have had my cat for five years now and I have had my own horse since May 2017.

Riding is also my favourite hobby. But I have to say that I haven't got so many hobbies. In winter I often go skiing and in summer I like to go swimming, especially with my friends and I really love the sea and beaches. But my favourite hobby is definitely horse - riding. I have been riding for seven years and for me it's everything. I think I couldn't live without that.

In my free time, after school, I also often play football with my father or my brother - Just in summer. In winter I really love snow. Then I want to go outside every day and play something in the snow or to take some good pictures.

Or I meet my best friend Elena, who lives next to me just the corner around. She also loves snow. Maybe even more than me. I think she is the best friend you can have. She's very friendly - Oh, and she's very pretty. Of course I have a lot of other very good friends, too, like Carina and Vali. I really like hanging out with them. They always make me laugh. I love them all.

Yeah - that's me ♥
