

Hello Everybody!

My name is Anja Zapp and I am 15 years old. I was born on the 26th of September in 2002. Currently I am attending the 5th grade in the grammar school of St. Paul. My family and I are currently living in a small village near St. Paul, which is called Oberpichling.

My family

My family consists of myself, my parents, my two sisters and my two brothers. My father, who is called Roland, is the owner of a company named SKY Aluminium Systems and my mother, who is called Natalie, works as an Essential Oils Practitioner and Essential Oils Energizer. The oldest of us kids is my elder sister named Chiara, who currently is in her last year of training as a dental technician. Next am I, followed by my younger brother named Fabio. He is in the 3rd grade at the same school as me. After him comes Juliano, my other brother, who is currently attending his 4th and last year in elementary school. Last but not least is my younger sister, who is named Alisha, and she is in her 2nd year of elementary school. So this is my family.

Me

I already told you some things about me above and here are some more facts. I am most of the time an easy going person. I am often happy, but can also just as easy be annoyed. I like to spend time with my friends and family. But after school, when I come home, I almost prefer it to be in my room and read a good book. I don't

like noisy places, but because I live in a very lively household, there isn't much to be done there. My hobbies are reading, drawing, swinging and working on some of my own stories. My family also has some cats, which I like to play with.
