

Hello everyone, my name's Penny! I was born and raised (well technically I am still being raised) in the enchanting city of Thessaloniki. It has been almost four years since I joined Aristotle College and so far the experience has been one of a kind. I am an only child born December 4th, 2002. My mom has studied logistics but surprise, surprise just like many other Greeks, she is currently unemployed! My dad, on the other hand, has studied mechanical engineering and works as a truck driver. I live with my mom in a cozy flat in a region of east side Thessaloniki, called Ano Toumba (Upper Toumba). Our flat is also home to a bunny called Hermes and a freshwater turtle that goes by the name Manny.

Now let's move onto talking about myself. I love learning foreign languages and communicating with people of all ethnic and cultural backgrounds, which is probably the main reason I got involved in Erasmus+. Aside from learning foreign languages, in my spare time (if that even exists anymore) you will probably find me taking dance classes; ballet, contemporary, latin and hip-hop to be exact, painting or even trying to teach myself how to play the ukulele (which I cannot say I have mastered quite yet). I am really excited to meet all the students that are going to be participating in Erasmus+! I am sure that it will be a memorable experience for all of us! (Wow that unintentionally rhymed).

Now here are some photos of my face, to assure you that I am not a sixty year old who lives in a basement.
