

Hello everyone! My name is Christina and I was born and raised in Thessaloniki, an enchanting city of Greece. I am 16 years old and I am on my junior year of High School. My mother, Eirini, is a pharmacist and my father, George, is a bank employee and they are married since 1998. I also have the most adorable dog that has ever lived on this planet. His name is Rex (I was a super fan of Kommissar Rex as a kid!) and he is a Labrador Retriever, which is sleeping all day long (soooo jealous of him!!). When I have leisure time I love going out with my friends, playing the guitar and trying new things. My biggest dream is to travel all over the world with my friends and do things I will remember for a lifetime. The thing that I am most afraid of is being estranged from people I love. I would have married the guy who invented chocolate if I could (but I suppose he is dead-no hope-). Another thing about me is that I like meeting new people, from different cultural backgrounds and cooperate with them. So, I really want to get to know all of you guys. I am sure that we are going to have a lot of fun during our trips, so I can't wait to see you!!

Kisses,

Christina
