

Introduction of myself

Hi everyone!

My name is Stratos Papakyriakou and I am 15 years old. I was born on 22th January 2002 in Thessaloniki, where I live. I am a student of the 1st grade of high school and this is my first year in Aristoteleio College.

I have three sisters, who all are older than me. My first sister's name is Dimitra, who is 31 years old. She is a teacher and lives with her husband and two children near my village in Kavala. The second one is Stefania, who is 29 years old and lives in Athens, capital city of Greece. She works with computers in a company. My third sister is Antigoni, she is 22 years old, lives with me in Thessaloniki and studies physics. My mother's name is Mary and my dad's name is Kyriakos. Both of them are accountants and work together in their own office.

During my free time I really enjoy going out with my friends, playing basketball and video games with them. Moreover I love football as I am a player for the football club Asteras Raidestou. I also really like listening to music and watching sports, especially football and basketball.

My favorite food is pastichio, which is a traditional Greek food made by spaghetti and beef. I also love pizza and sweets.

I'm really looking forward to meet other people of the „Erasmus- project“ and to host kids from other countries and visit their country.
