

My name is Kostas Stamkopoulos and I am 15 years old.

I am attending the first class of high school and I am in Aristotelio College for 10 years.

I have 2 brothers and 1 sister. My sister Dimitra is the oldest in my family and she is 22 years old. My big brother is 21 years and his name is Vangelis. My middle brother whose name is George attends to the Third grade of high school.

My father is a priest and the same time he is a University professor. He is a physicist with a PhD in Medical informatics. His name is Telem, but people call him Father Gregory because he is a priest. My mum is called Eirini and she is a doctor. She loves doing household and going out with her friends.

I do not have any pets.

In my free time I use to play football, listening to the music and going out with friends.

My favorite food is steak with potatoes but I like tasting new foods.

I really want to meet new students from other countries because we will exchange cultures and will have fun together.
