

## *Introduction of myself*

Hello! My name is Elena Triantafyllidi and I am 15 years old. I was born on the 7<sup>th</sup> of October, 2002 in Thessaloniki, the second biggest city in Greece and currently live in an apartment with my mum. I attend the 10<sup>th</sup> grade of Aristoteleio College in Pylaia.

My mother, who is called Georgia, is an English teacher at the Elementary section of Aristoteleio College and my father transfers medicine from the factories to the pharmacies for a living.

In my free time, I don't particularly like to do any sports, however once a day I make sure to do some home workouts. I really like to listen to music and I don't particularly have any genre of music that I like more. Another hobby of mine is doing makeup, mine or my friends'. I view makeup as a way to express my creativity and make something beautiful. I also really enjoy going shopping nowadays, even though last year I used to despise it. That has changed because I'm now really into fashion and enjoy dressing up whenever I have the chance to.

I honestly don't think I have a favourite type of food. I used to be obsessed with chicken or meat in general, however after months of constantly eating it, I've grown tired of it. I really like pasta and most vegetables and I also find fruits really tasty.

I don't have any pets, mostly because our apartment is way too small, however I have a weak spot for cats and in the future I really hope I get one!
