Erasmus+

Classroom immersion/Workshop: Languages

Wednesday, 25/04/2018 - Srednja škola Andrije Ljudevita Adamića

Language workshop was divided into two parts. During the first part of the workshop, students played an interactive Kahoot quiz named *How much do you know about languages*. The aim of the quiz was to get them think about language origins of certain words, different language groups in Europe, alphabets and language pairs. Students were divided into 8 groups of 4 students and every group consisted of several Erasmus students from different countries. The quiz lasted 45 minutes and students demonstrated great knowledge of European languages.

Second part of the workshop was organized as a writing session. Students were given clay plates on which they had to carve the phrase *Lets build Europe together* using Glagolitic script. The aim of the workshop was practical usage of Glagolitic alphabet to produce pieces of art that the students can then take home as a souvenir from Croatia and a memory of this particular Erasmus exchange held in Croatia. Students had the chance to visit the island of Krk, where they familiarized themselves with the Glagolitic script and its characteristics. The workshop aimed at deepening their knowledge of the script and using it practically.
