

# ***MY PORTFOLJO***

Hello there, my name is Karlo Pavlak. Im 17 years old and I live in Kostrena, a suburban district of the city Rijeka.

I live in a beach house with my parents and older brother. However, he is currently enrolled as a student at the university of Zagreb. My parents own a financial counseling company and work either at their office in the city centre, or at home.

I attend High School Adamić and now im enrolled into my 3rd year out of 4. I wake up at 7:30 everyday, eat breakfast, drink coffee, and get ready for school. I often go by bus, but sometimes my parents drive me when it's, for instance, bad weather. It takes about 10 minutes by vehicle from my house to school.

Outside of school my hobbies are creative things like writing, composing, playing instruments and singing, rather than sport activities. I wrote a book of poems and a couple of lyrical songs which I am very proud of. Throughout my life I traveled all across the world, and for several years went to english summercamps in both UK and USA over the summer holidays.
