

Introduction of myself!

Hallo, my name is Luka and I live in Rijeka, Croatia. I am 15 years old but by the time anybody comes here with Erasmus I will be 16. I am a student at Gimnasium of Andrije Ljudevita Adamića. I am currently in the second grade.

I live in a house which is divided in 3 flats and we own 1, but we also have our backyard and a big grill. Who ever comes is sure to have a great food and time. I live with my mother who is a housewife, my father is a watchmaker and my brother who is 3 years younger than me and going to the elementary school.

My hobbies are history, ethics, meeting other people and their cultures, skiing and computer games. I am great in all humanistic and social subjects. I want to meet other cultures because I think that it will make me more intercultural and it will be a great experience in my life. Regarding my free time, I am very passionate about football. For me it is the most beautiful game in the world. I play FIFA all the time and a little bit by myself. I love active vacations and in winter I love going skiing.
