

# Let's Build Europe Together

## Role of Active Civic Responsibility for a sustainable development of the EU

## Goal 1: End poverty in all its forms everywhere

Currently, 20% of the rich population consumes 80% of the world's resources

The solutions for poverty in the world are:

- End inequality
- Set affordable limits for the planet

## Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Shop only for sustainable seafood.

Buy fruit that is thrown away because its size, shape, or color is not “right”.

### Goal 3: Ensure healthy lives and promote well-being for all at all ages

Bike, walk or take public transport. Save the car trips for a big group.

Promote sports in our society for young and old people.

## **Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all**

Expand and improve early childhood care and education

All minors must have access to a quality primary education, compulsory and free

Achieve educational gender equality

## **Goal 5** Achieve gender equality and empower all women and girls.

Provide women and girls with equal access to education, health care, decent work, and representation in political and economic decision-making processes.

## Goal 6: Ensure availability and sustainable management of water and sanitation for all.

By 2050, at least one of four people will be likely to live in a country affected by chronic or recurring shortages of fresh water. We will create water wells to help everyone.

## **Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all.**

United Nations is leading a Sustainable Energy for All initiative to ensure universal access to modern energy services, improve efficiency and increase use of renewable sources.

## **Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.**

Sustainable economic growth will require societies to create the conditions that allow people to have quality jobs that stimulate the economy while not harming the environment.

## Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.

Technological progress is the foundation of efforts to achieve environmental objectives, such as increased resources and energy-efficient systems.

## Goal 10 Reduce inequality within and among countries.

The application of universal policies that also give special attention to the needs of disadvantaged and marginalized population has been recommended.

Michael Morgenstern

## **Goal 11 Make cities and human settlements inclusive, safe, resilient and sustainable.**

The future we want includes cities with opportunities for all, with access to basic services, energy, housing and transportation.

## Goal 12 Ensure sustainable consumption and production patterns.

It involves engaging consumers through awareness-raising and education on sustainable consumption and lifestyles.

## **Goal 13 Take urgent action to combat climate change and its impacts.**

Implementation of the Paris Agreement is essential for the achievement of the Sustainable Development Goals.

## Goal 14 Conserve and sustainably use the oceans, seas and marine resources for sustainable development.

Careful management of this essential global resource is a key feature of a sustainable future.

**Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss.**

Strengthen the means of implementation and revitalize the global partnership for sustainable development. Eat less meat, poultry, and fish.

**Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.**

Promote universal education, health and justice, equal for all.

## **Goal 17: Strengthen the means of implementation and revitalize the global partnership for sustainable development.**

Do a bit of online research and buy only from companies that you know have sustainable practices and don't harm the environment. The use of clean and renewable energies.

**And work hard, we can find a solution, I'm guessing**
